

Solution BRIEF

■ Program Plans and Controls – PPC

Integrated Program Management (IPM) and Earned Value Management (EVM) are best practices for project-centric industries, particularly contractors to the U.S. Federal Government. Dassian Program Plans and Controls (PPC) enables SAP® customers to leverage their investment and provide program managers with the tools necessary for effective IPM and EVM. Dassian PPC provides best of breed capability within the SAP ERP technology framework, and enables real-time IPM with a focus on baseline planning and EAC forecasting without needing interfaces to third party applications.

■ Benefits

- Improved productivity by minimizing redundant data entry
- Native integration with SAP means enhanced data quality and integrity
- Highly auditable design
- Ability to easily customize the user experience
- Increased ROI for your current software architecture
- No additional infrastructure, interfaces, or data conversion tools required

■ Features

- Planning data and actuals in one system
- Cost integration leveraging SAP financials
- Program baseline management and forecasting (EAC)
 - Resource planning and budgeting
 - Robust change control and snapshot history
 - Planning accelerators facilitate ETC calculation
- Full ANSI EIA 748 compliant EVM capability
- U.S. Government CPR / IPMR reporting
- Control account / work package management
 - CA and WP authorization documents
 - OBS / alternate hierarchy functionality in SAP
- Multi-currency capability
- Real-time reports and vivid graphical analyses
- Process-based user experience (UX) with role-based authorizations

"With SAP and Dassian, we can create CPR's, run tripwire checks, perform CAM reviews to enhance our variance analysis, and do all of this long before the CPR has to be submitted."

--- Jason Bartello, Senior PP&C Analyst, Honeywell Aerospace

"The SAP and Dassian integrated EVMS toolset is a complete game changer for how tools provide utility and efficiency with providing data that is CPR reporting ready."

--- Thomas Fanciullo, Manager Earned Value Center of Excellence, Pratt & Whitney

Easy-To-Use Workbench

Dassian PPC is a simple to use fully integrated cost control application. Features include adjustable discrete planning increments, flexible rate decks, ability to plan management reserve and undistributed budget, as well as fully burdened rates. PPC features a web-based process-centric user interface, making it simpler and more intuitive to use.

Dassian PPC supports the ANSI EIA 748 EVMS and U.S. Government Integrated Program Management reporting requirements. PPC now offers a new web-based Program Management Reporting (PMR) suite including real-time program management analytics and a robust executive dashboard to help you monitor your projects and enable corrective actions.

Dassian PPC delivers the only effective cost control and compliance solution fully integrated with SAP
